examination. To acquire true education should be the only aim in life of all (h) ____ students. (i) ____ educated man cannot support (j) ____ unfair means in the examination at all.
Blank Quiz

1. Where the value of g is zero?
   0 points
   at polar region
   at equatorial region
   at the centre of earth
   on earth surface

2. What is the mass of an object, which weight is 196 newton?
   0 points
   10 kg
   15 kg
   20 kg
   25 kg

3. Where is the maximum weight of an object?
   0 points
   polar region
   surface of earth
   hilly area
   in the moon

4. What is weight?
   0 points
   a type of acceleration
   a type of force
   a type of velocity
   a type of distance

5. What is unit of weight?
   0 points
   N
   M
6. What is the unit of force?

Your answer

7. Why unit of force and unit of weight are same?

Your answer

8. What is difference between mass and weight?

Your answer

9. Why does an object fall down when it is left from above?

Your answer

10. What do you understand by the value of the acceleration due to gravity of any place is 9.8ms^-2?

Your answer

11. Write down the reasons for which weight of an object changes.

Your answer
1. Where the value of $g$ is zero?
0 points
at polar region
at equatorial region
at the centre of earth
on earth surface

2. What is the mass of an object, which weight is 196 newton?
0 points
10 kg
15 kg
20 kg
25 kg

3. Where is the maximum weight of an object?
0 points
polar region
surface of earth
hilly area
in the moon

4. What is weight?
0 points
a type of acceleration
a type of force
a type of velocity
a type of distance

5. What is unit of weight?
0 points
N
M
s
J

6. What is the unit of force?
0 points
N
m
s
k

7. Why unit of force and unit of weight are same?
8. What is difference between mass and weight?

Your answer

9. Why does an object fall down when it is left from above?

Your answer

10. What do you understand by the value of the acceleration due to gravity of any place is $9.8\text{ms}^{-2}$?

Your answer

11. Write down the reasons for which weight of an object changes.

Your answer
